

ENDURANCE workshop: SUMPs and national frameworks

The role and impact of overarching support, frameworks and guidance on sustainable urban transport planning

25 February 2016, Brussels
 Polis offices, Rue du Trone 98, 1050 Brussels

Sustainable Urban Transport Plans (SUMPs) are a key tool to achieve more sustainable mobility locally. The European Commission recognises the potential of SUMPs, supports capacity building and encourages the uptake of SUMPs. Some Member States also support the uptake SUMPs through funding programmes, legislation, guidance and support.

This workshop contributes to build capacity on the impact of national (or regional) frameworks on SUMPs prior to the upcoming revision of the European [Eltis SUMP guidelines](#). It also helps prepare the path to make SUMPs an essential part of the upcoming urban mobility partnership of the European Urban Agenda.

WORKSHOP AGENDA

Workshop chair: Karen Vancluysen, Secretary General, Polis

9.00h	Coffee and registration
9.15h	Welcome and introduction Isabelle Maes, DG MOVE & Christof Marx, EASME (ENDURANCE Project Officer)

MORE INFORMATION

Attendance is free of charge but registration required.

Presentations will be made available online at <http://www.polisnetwork.eu/endurance-sump>

ABOUT ENDURANCE:

ENDURANCE aims to assist cities and regions with developing Sustainable Urban Mobility Plans (SUMPs) by facilitating networking, mutual learning and sharing of experience and best practise across countries. ENDURANCE builds 25 national networks and an overarching European network making use of the existing EPOMM (European Platform on Mobility Management) structure. The main target groups of ENDURANCE are urban mobility professionals, cities and national authorities. The main benefits are efficient and lasting support structures for SUMP, which will be maintained by EPOMM beyond the end of ENDURANCE. www.epomm.eu/endurance
