SMART CITY

Smart City Introduction and China Smart City Pilot Project

SMART CITY AND NEW-TYPE URBANIZATION

Green City

Smart City

Sponge City

Humanity City

National New-Type Urbanization Planning 2014-2020

Comply with trends of modern urban development, promote urban green development, improve the level of intelligence, enhance the charm of history and culture, improve the inner quality of the city.

Promoting Smart City Sound Development Guidance

Promoting Smart City Sound Development Guidance is issued in August 2014, and it is **co-issued by 8 different ministries**.

This guidance proposed that **a group of smart cities should be constructed to 2020**, and by that time, their aggregation and radiation effects and comprehensive competitive advantages will be strengthened, which reflected on guaranteeing and improving civic livelihood, innovating social governance, and maintaining Internet safety, etc.

INTERNATIONAL PARTNERSHIP (CHINA)

National Cooperation

US-China for Building Smart Cities Based on Clean Energy

With the theme of *Smart City, Smart Growth*, Premier Li Keqiang and US Secretary of Commerce Penny Pritzker and Deputy Secretary of Energy Elizabeth Sherwood-Randall, exchanged ideas on green building, energy-saving reconstruction, building management, green data center, carbon capture, utilization and storage, energy saving, clean air and water, waste disposal technology, smart grid and green transportation etc., topics.

Premier Li Keqiang and US Secretary of Commerce Penny Pritzker and Deputy Secretary of Energy Elizabeth Sherwood-Randall (Beijing, 13th Apr, 2014)

INTERNATIONAL PARTNERSHIP(CHINA)

National Cooperation

EU-China Green Smart City Cooperation

The EU-China Green smart city cooperation stems from the agreement between DG CONNECT and the Chinese Ministry for Industry and Information Technology (MIIT) to develop “Green Smart City” cooperation, to establish an expert framework for promoting EU-China Smart Cities cooperation, to select 15 pilot cities from China and the EU, and to establish a technical experts group to carry out related research and cooperation.

Europe-China Eco Cities Link , EC-LINK

The Europe China Eco Cities Link project is officially launched as a sub-forum event of the Eleventh International Conference on Green and energy Efficient Buildings. The project is supported by the European Commission Directorate General for Development Cooperation, and by the Ministry of Housing and Urban Rural Development in China. The Project Management office is set in China Society for Urban Studies (CSUS), which is responsible for the coordination. It has a total budget of 9,3 million EUR and its implementation will last until November 2017 from Now, 2013.

SMART CITY

Case Study—Shanghai Pudong

- ❑ Square: 1210 km²
- ❑ Jurisdiction: 12 community committees, 24 towns
- ❑ Residents: Over 5.4 million
- ❑ GDP 2014: 68.5 Billion Yuan

CASE STUDY—SHANGHAI PUDONG

Challenges

Low level of convexity between different departments can hardly provide much synergistic effect.

Traditional public service can no longer match the increasing demand of the residents.

Pudong is facing a number of economic sustainability challenges.

Smart Governance

E-governance Platform
Operation Center
Administrative and Approval Platform

E-service

Smart Transportation
Smart Health
Smart Community
Old-age Caring System

Integrating city and the industry

Free Trade Zone
Energy Consumption Monitoring Platform

Methods

CASE STUDY—SHANGHAI PUDONG

E-governance Platform

202 branches achieve accessibility

Data connectivity for 34 different government business systems

Administrative and Approval Platform

Pudong website

12345 special telephone line

Administration Service Center

Public Data Base

Contains information over 5.3 million residents, covers 99% of the registration residents and cooperate by 111 organizations

Contains information over 200,000 registration companies, covers 98%

Contains Geographic information over 120 layers

CASE STUDY—SHANGHAI PUDONG

Smart Transportation

All buses(3,000+) in Pudong is under control of the smart scheduling system

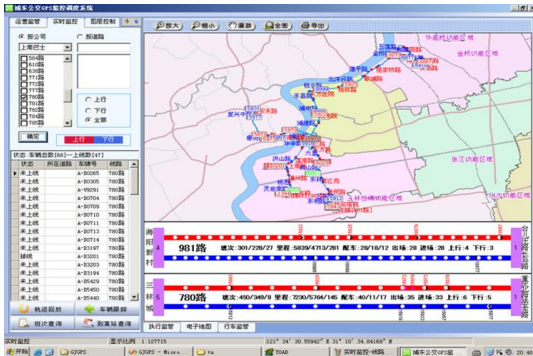

More than 300 solar power bus stations

APP for PC and mobile

Smart Health

63 hospitals have access to each other and to the Shanghai Health Platform

Residents can check his/her medical history and health information online

CASE STUDY—SHANGHAI PUDONG

Macroscopic

- Overall master plan and multi-departments communications

Innovation

- Innovation information sharing system

Resources

- Cooperation between government and companies

Microscopic

- From Pilot area to the whole area
