

ADDRESSING KEY CHALLENGES OF SUSTAINABLE URBAN MOBILITY PLANNING

---

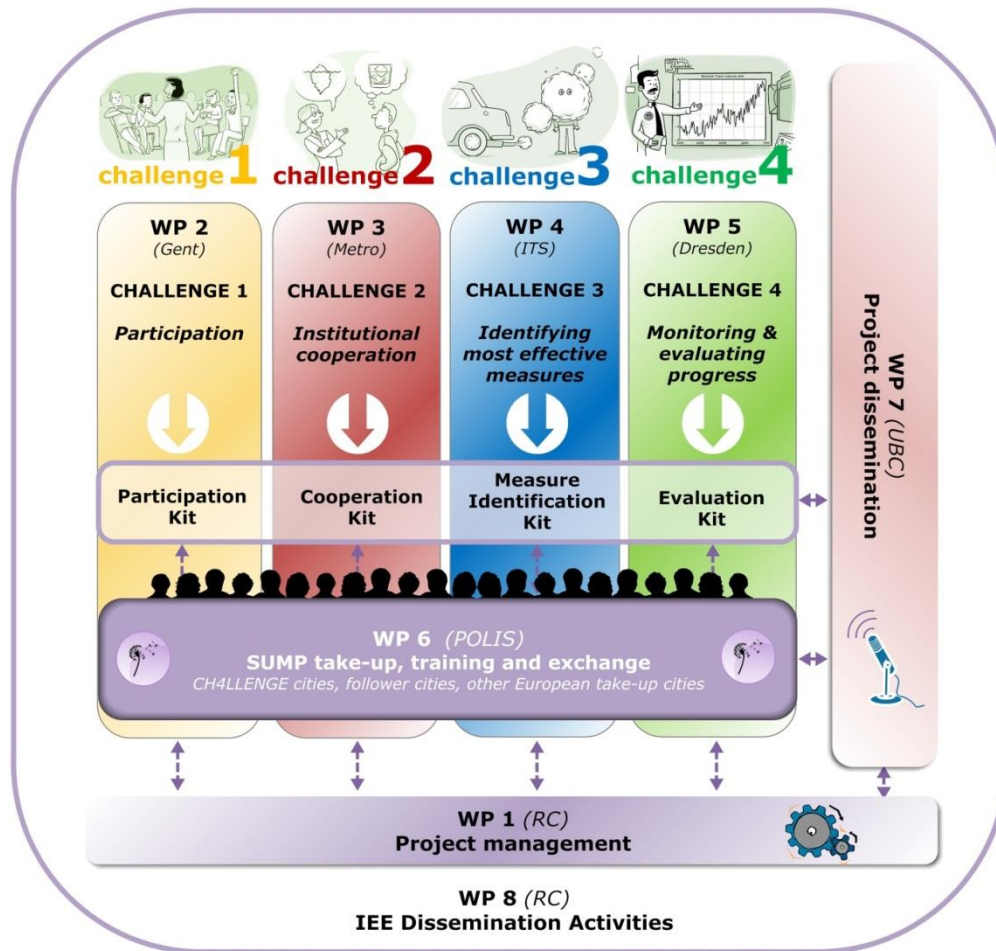

# First SUMP Challenge Training Workshop on Stakeholder Involvement and Citizen Participation

Gent, 2-3 July 2013

Co-funded by the Intelligent Energy Europe Programme of the European Union

# CH4ALLENGE: Addressing Key Challenges of Sustainable Urban Mobility Planning

- SUMP - an urban transport planning concept promoted by the EU
- Facilitation of a discussion and learning process among European cities about current planning strategies and strategies for improvement
- Each city is different but all are facing the same challenges:
  - Developing and financing urban transport infrastructure
  - Political and public legitimation
  - Economic viability
  - Increase in quality of life, wellbeing etc.
