

## The LEEZEN Network

The LEEZEN Network supports authorities operating or planning LEZs, particularly in spreading LEZ information around Europe and sharing information between LEZ authorities.

### The public Website provides:

- Single user-friendly source of information on LEZs in Europe for vehicle operators
- **All** details of LEZs in Europe that the public needs **in one place**
- Easy to navigate maps and menus
- Translation into 29 European languages with a press of a button
- Regularly updated
- The key tool requested by vehicle stakeholders to find out about LEZs
- Help LEZ authorities comply with the EU legal requirement to spread information about any LEZs around Europe (if they affect foreign vehicles)
- Linking to this website, LEZ authorities can provide information in different languages about their LEZ
- Well known, used and linked to

LEEZEN offers a wealth of services to support LEZ authorities. Membership is essential for the operation of these valuable websites and Network, together with EU part-funding.

### Members services include:

- Supporting LEZ authorities in their preparation and operation of LEZs.
- The sharing of information and experience on LEZs in Europe, this includes,
  - Best practice
  - Collating of monitoring information from LEZs
  - Enforcement
  - Legal aspects and challenges
- Allow for joint working if and when useful
- Secretariat to answer questions about aspects of LEZs in Europe
- Contacts and bulletin board for discussions between LEZ authorities
- Put additional information onto the public website
