Healthy Urbanization

Introduction

1. Background: Why this theme?
2. What does Healthy Urbanization mean?
3. Cooperation Ministry I&M, RWS, City of Utrecht
 - Working trip Utrecht Station Area, January 2014
 - Follow up in Utrecht and elsewhere
4. Preparation EU proposal 'Networking for Urban Vitality'
5. Discussion

What is a healthy city?

Copenhagen

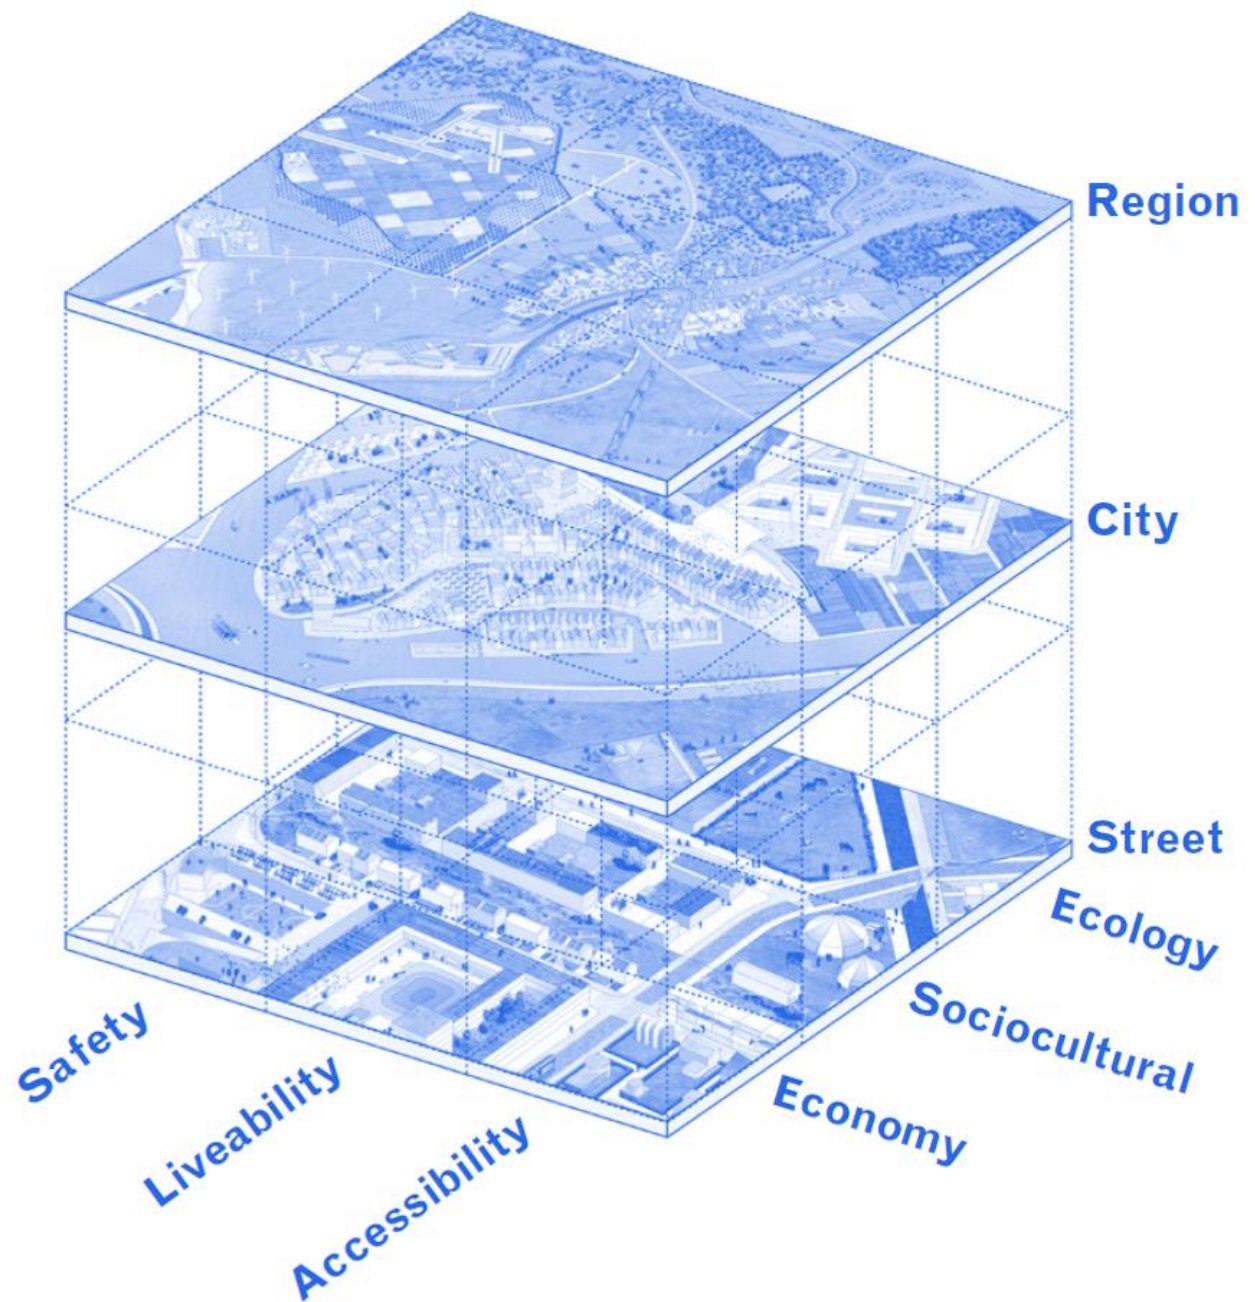

Copenhagen

2. What does Healthy Urbanization mean?

- Holistic approach > interdepartemental cooperation
- At various levels (region, city, street)
- Connectivity
- Change in mindset > government as partner!
 - a shift away from problem solving, protecting and regulating
 - to stimulating development potentials

The Healthy City Cube

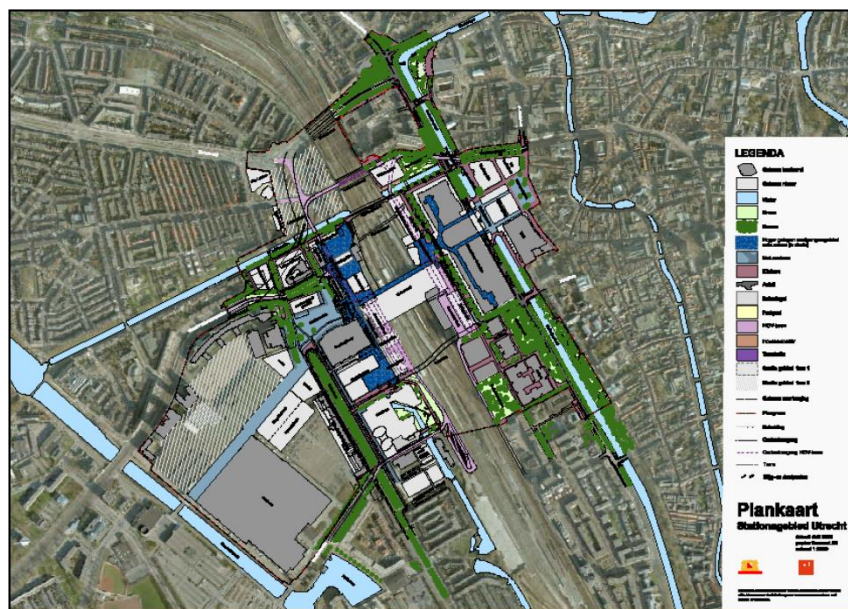

Maastricht

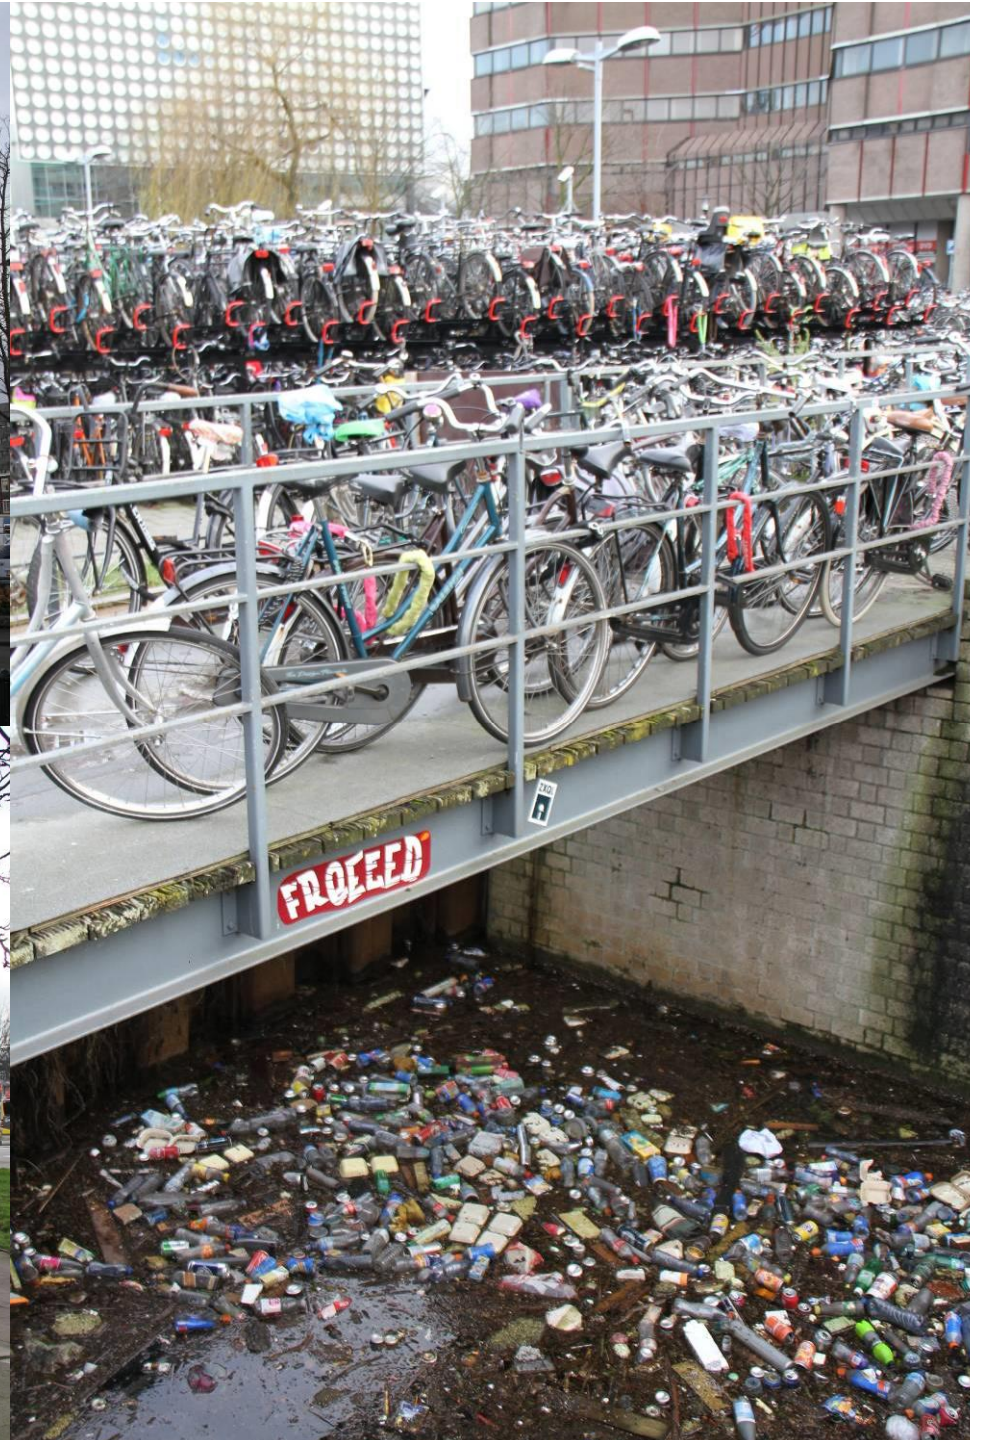

3. Cooperation Ministry I&M, RWS, City of Utrecht

- Exploring and experiencing in a specific area
- Space, environment, mobility, health, ...
- Field trip Utrecht Station Area, January 2014
- Building blocks for healthy urbanization?
- Follow up in Utrecht and elsewhere

4. Preparation EU proposal 'Networking for Urban Vitality'

Focus on the synergy between

- Mobility
- Infrastructure Networks
- Land Use and
- Livability

**Scale of the
European
corridor**

**Scale of the
Daily Urban
System**

**Scale of a
specific
location**

5. Discussion

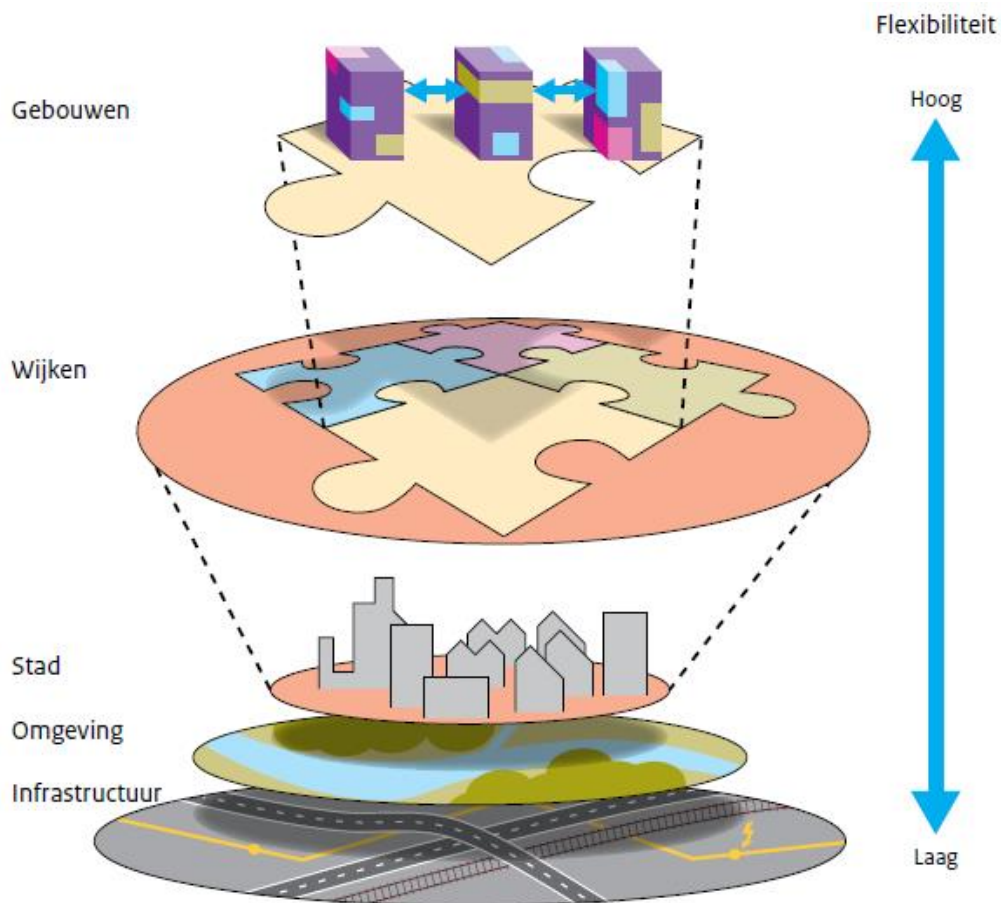

- Content?
- Potential consortium partners?
- Follow-up EU proposal 'Networking for Urban Vitality':
TRA Paris, workshop Brussels, 18 June

**Thanks
for your
attention!**

Multi level and multi actor challenges in the city
