

MORE Exchange Forum

About the MORE Project

The EU-funded [MORE project](#) is developing procedures and tools for the design of major urban radial routes, connecting to national road networks – addressing both current and future conditions. MORE will test these on corridors in five ‘urban nodes’ of the Trans-European Transport Network (Budapest, Constanta, Lisbon, London and Malmö) and will deliver tools to assist cities in their road space re-design processes. Specifically, the MORE project will develop four tools:

- A library with suggested design elements, to develop new options for street-space allocation that meet specified policy objectives;
- A stakeholder engagement tool for the co-creation of design options, using both web-based and traditional planning tools;
- A traffic simulation tool that will mimic user behaviour in streets and on roads, and assess aggregate behaviour in terms of a set of performance indicators;
- An appraisal tool for the assessment of the resulting design options.

The MORE Exchange Forum

The MORE Exchange Forum is a platform to discuss and exchange ideas relating to road/street-space allocation on main roads in cities (including kerbside management) and to provide feedback on the MORE tools and research results. Members of the MORE Exchange Forum will receive frequent updates, have the opportunity to meet regularly throughout the project and contribute to shape the MORE tools and concepts.

MORE Exchange Forum Members will be able to closely follow, comment on and validate the development of the tools. They will also serve as a sounding board for discussing other areas of work in the MORE project, where user needs are identified, regulatory frameworks are reviewed, technological futures are explored and scenarios are developed, and dynamic road design requirements are identified; and to share their own work.

What are the benefits of becoming a MORE Exchange Forum member?

The contributions of MORE Exchange Forum members will include opportunities to:

- Participate in MORE Exchange Forum meetings and discussions (three meetings, one per year), plus other public events.
- Provide feedback on MORE tools and concepts, as well as on draft versions of selected MORE documents
- Circulate information to other members on your own products, services and applications
- Disseminate MORE results through your own communication channels (events, website, newsletters, etc.).

MORE Exchange Forum annual meetings

The first MORE Exchange Forum meeting will take place on the afternoon of Tuesday 1st October 2019 in Graz, Austria, in conjunction with the [2019 Civitas Forum Conference](#).

The two following MORE Exchange Forum meetings will take place in mid-2020 and mid-2021.

How to join the MORE Exchange Forum

Representatives of local and regional authorities, commercial associations, consultancies, users' representatives, researchers, NGOs and private companies from across Europe are invited to join the MORE Exchange Forum.

To join the MORE Exchange Forum, please fill out the following [online form](#).

All Forum members are invited to participate in the annual Forum Meetings. Limited financial support is available to assist a small number of members to attend, where other sources of funding are not available.

The deadline for application to participate in the first Forum meeting is 1st September 2019.

Confidentiality

All data collected from MORE Exchange Forum members will be aggregated and included in project reports; however, individual data will remain confidential.
