

An aerial night view of a city, likely New York City, showing a dense grid of streets illuminated with warm yellow lights. The sky is a deep blue with some clouds. The overall scene is a vibrant, high-angle perspective of an urban landscape at dusk or night.

Smarter cities, now

A futuristic city street from the movie The Fifth Element. The scene is filled with flying cars and a large red and yellow striped structure. The text "Do cities need autonomous (flying) cars to become smart?" is overlaid in the center.

Do cities need
autonomous (flying) cars
to become **smart**?

The screenshot displays the OUI website's taxi booking interface. At the top, there is a navigation bar with a 'Menu' button, the OUI.sncf logo, and links for 'English' and 'Help'. The main heading is 'Mon Chauffeur ^{TGV} in OUI', with 'FAQ Contact' on the right. The booking form on the left includes fields for 'From' (Gare de Marseille Saint-Charles), 'To' (Aéroport de Marseille Provence (MRS)), 'Date' (12/10/2019), 'Time' (07:45), 'Passengers' (1), and 'Luggage' (0). The right side, titled 'Select a quote', shows 'Available quotes for 1 passenger(s) and 0 luggage' with a table of options:
