How did we cope?

- Rules and regulating
- Separation of cars, cyclists and pedestrians
- More legislation
- More signs
- More control
- More police
- More examination and testing
- More education
- Severe fines and penalties

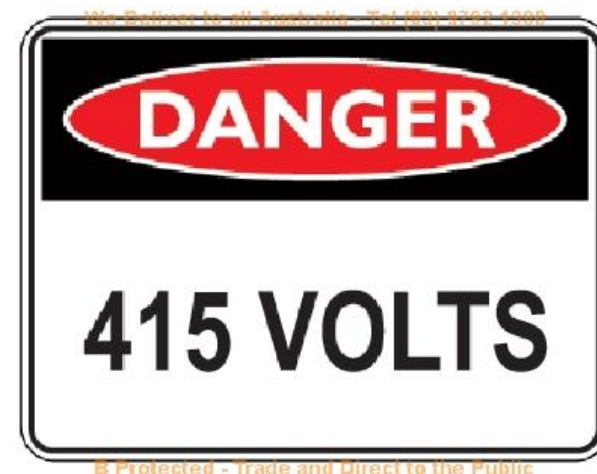

Where does this end????

Too much rules, signs and lines.

Principle: responsibility

We are thinking for you!!!

Less rules?

Life with electric cars

All hail the revolution

Technological innovation must be combined with social innovation.

Safer behaviour.

Sigerswâld

A village, divided by a canal and a provincial road.

A junction of two 80 km/h roads, was converted to a square with the ideas of shared space and the commitment and realization of the users.
