## Point-to-Point versus Hub-and-Spoke Networks

Point-to-Point and Hub-and-Spoke Networks

*We know that women's transport needs different so why do we need this session?*

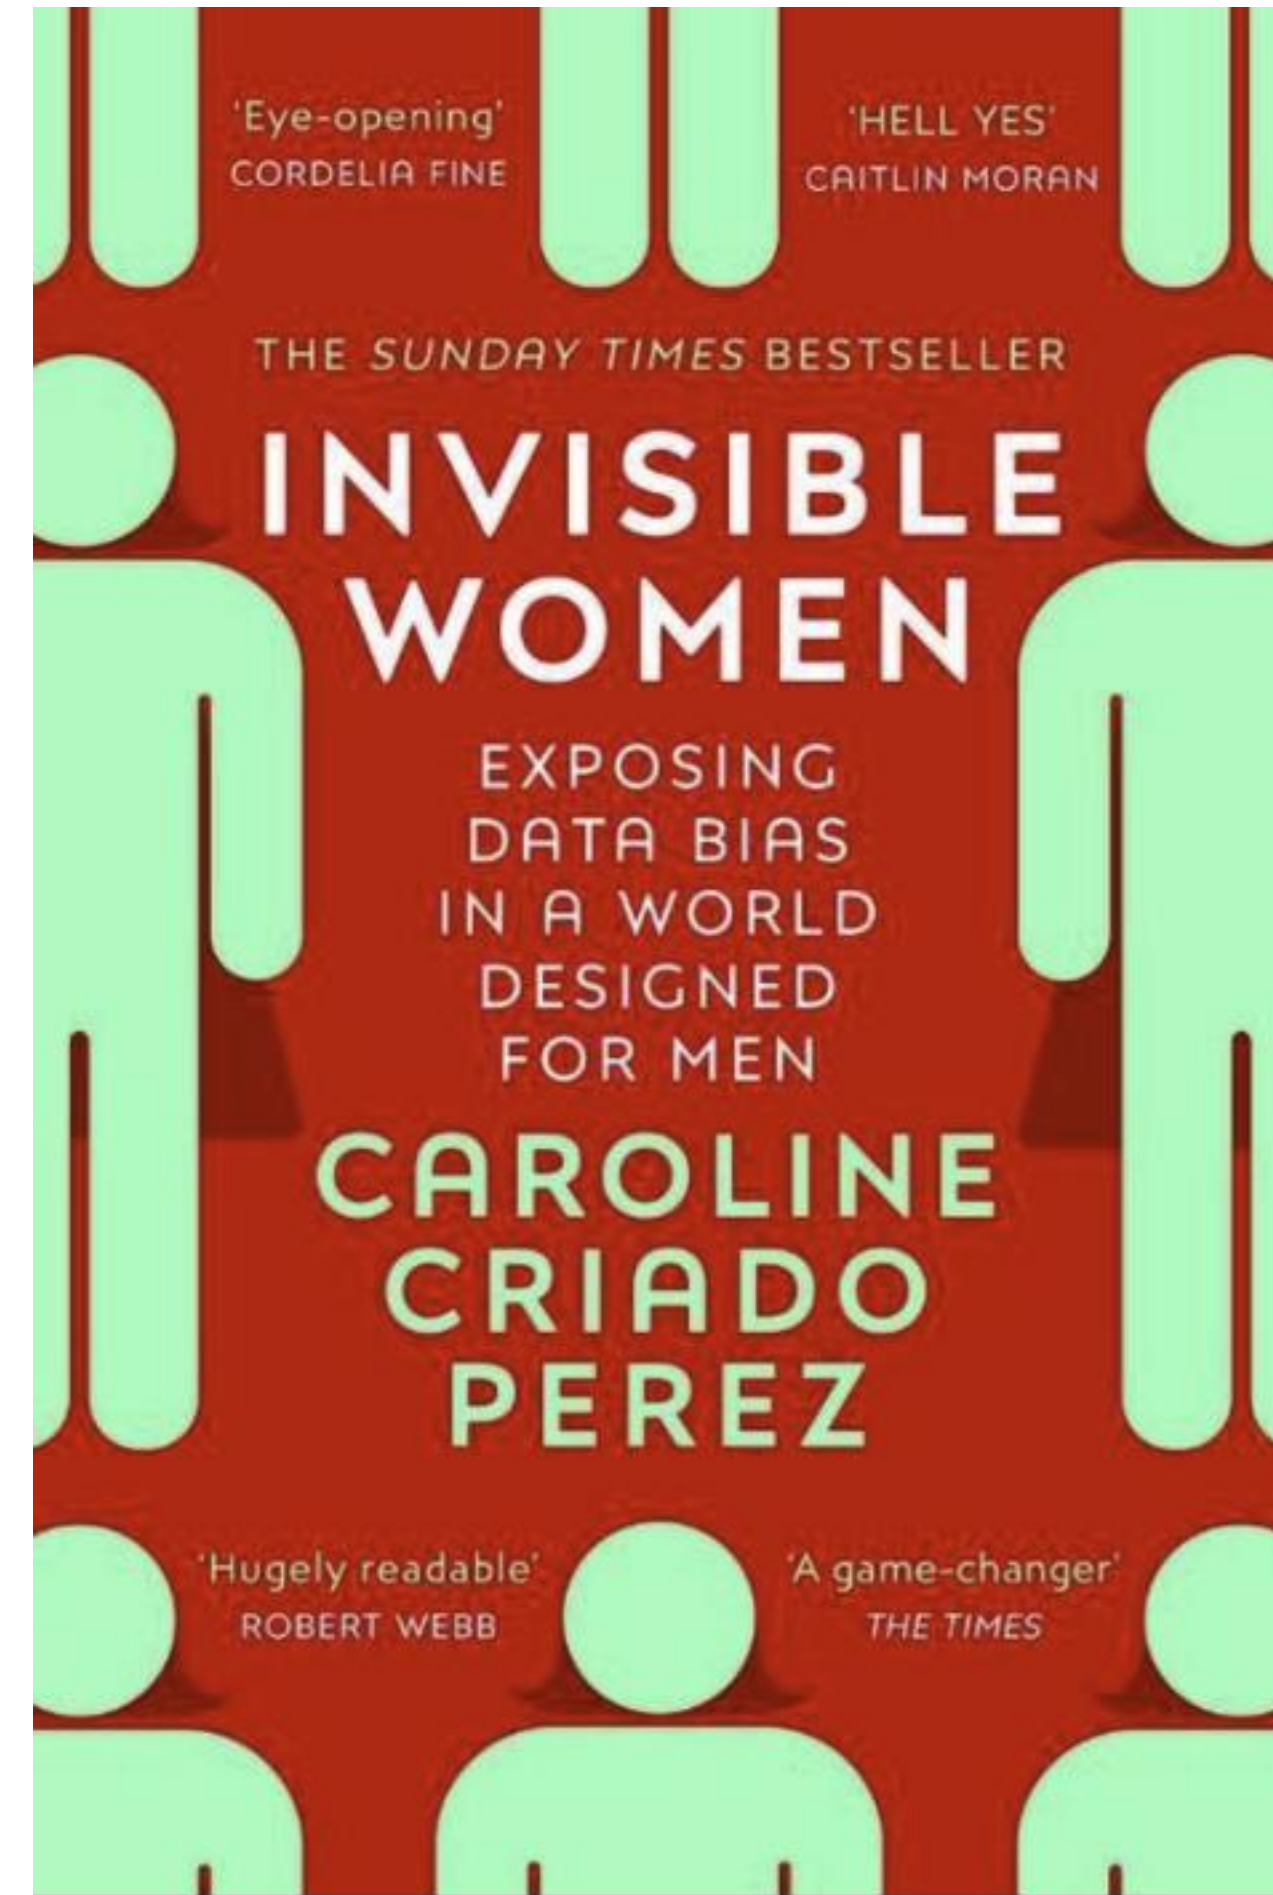

*Lots of short trips out of peak hours – right?*

*Walk more, use public transport a lot, drive less – all that stuff...*

*That's no longer correct..*  
*1 Gender & Transport*  
*2 Invisible Bias*  
*3 There's a lot we don't know*

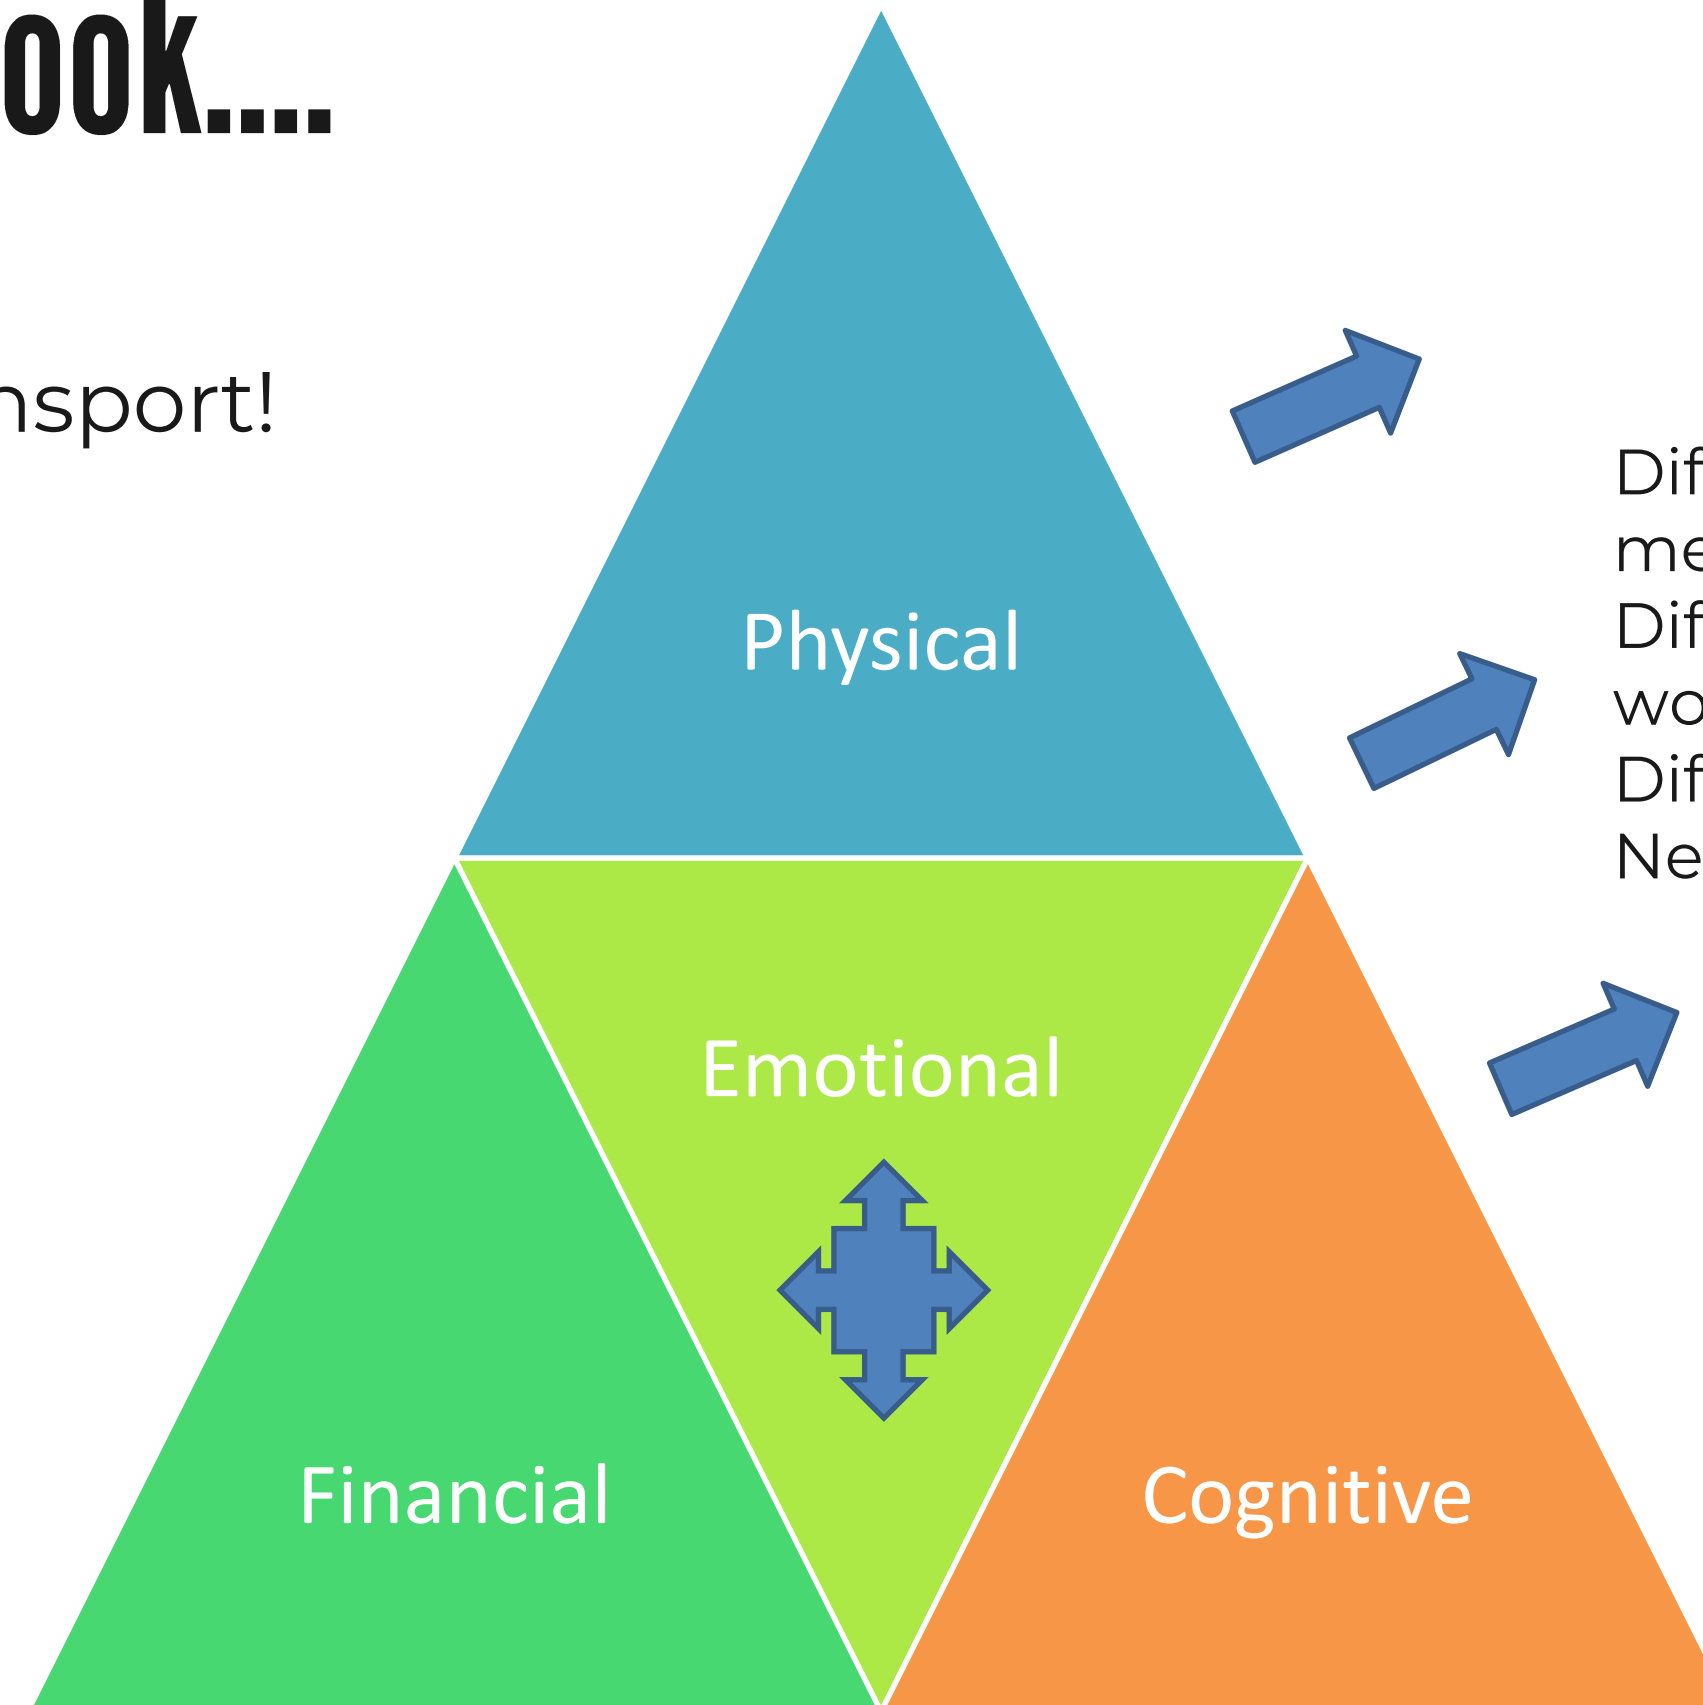

# Typical 'drivers'

# Taking a new look....

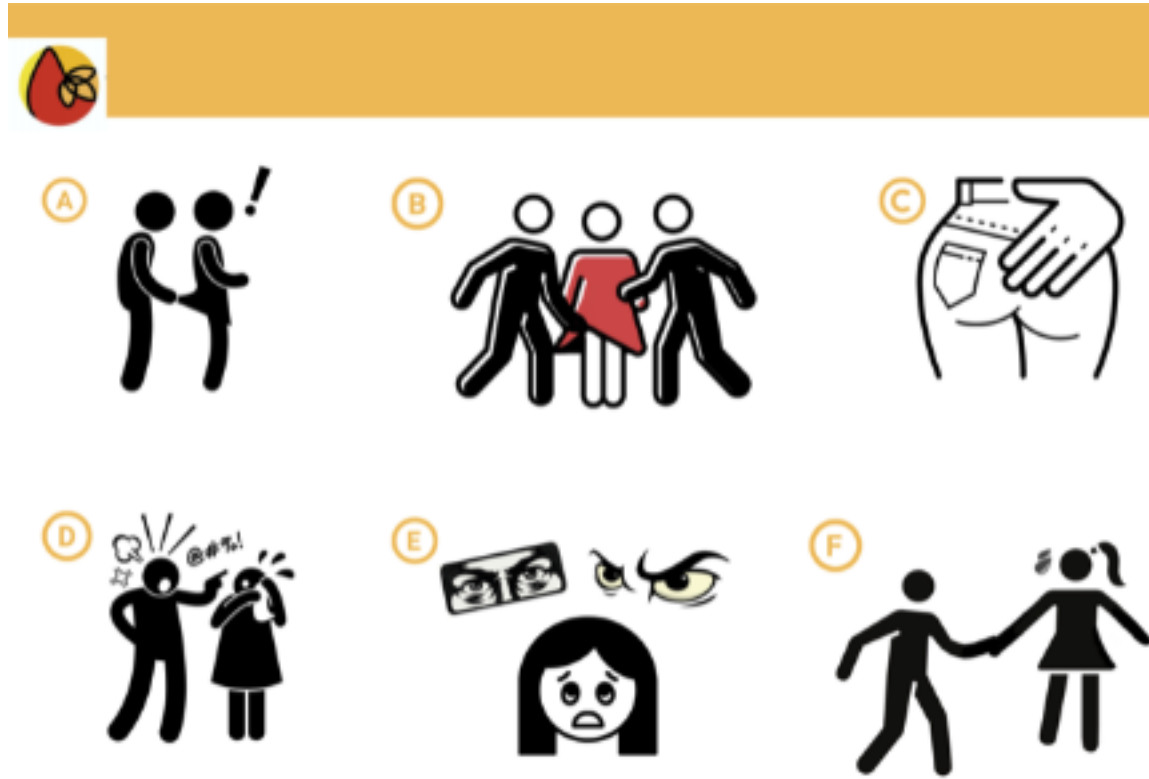

Multiple choice transport!

Different capabilities between men and women  
Different between older/younger women  
Different perceptions of access  
Need to go to different places

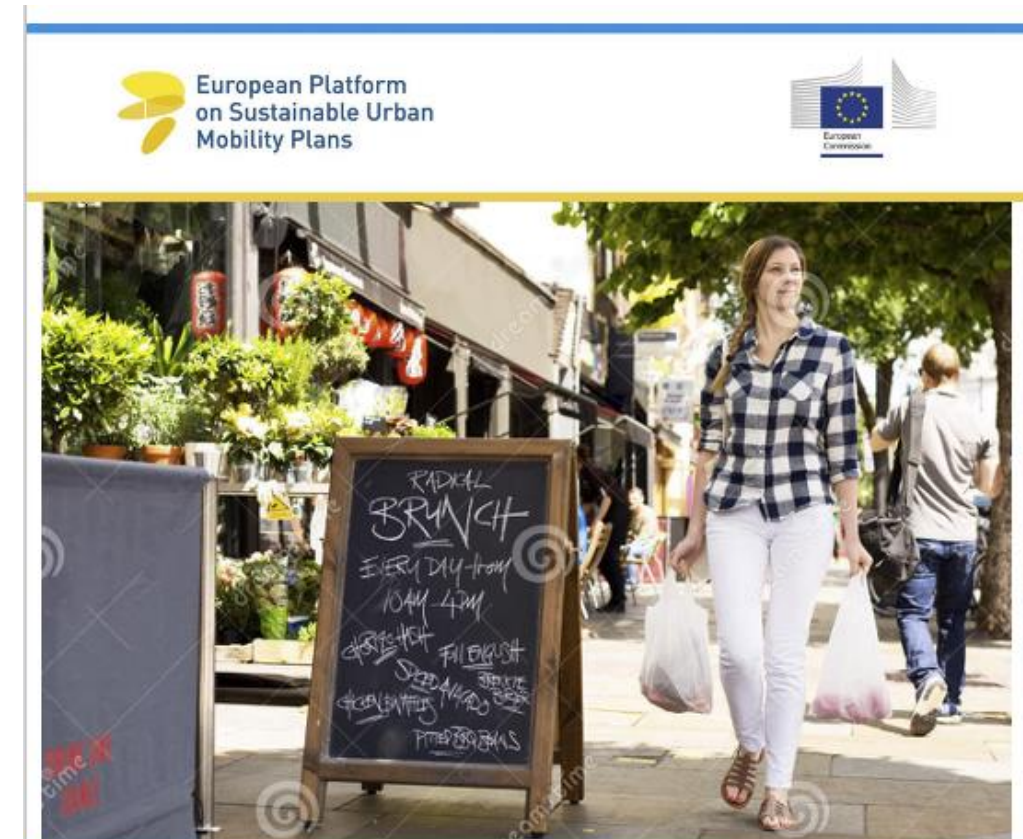

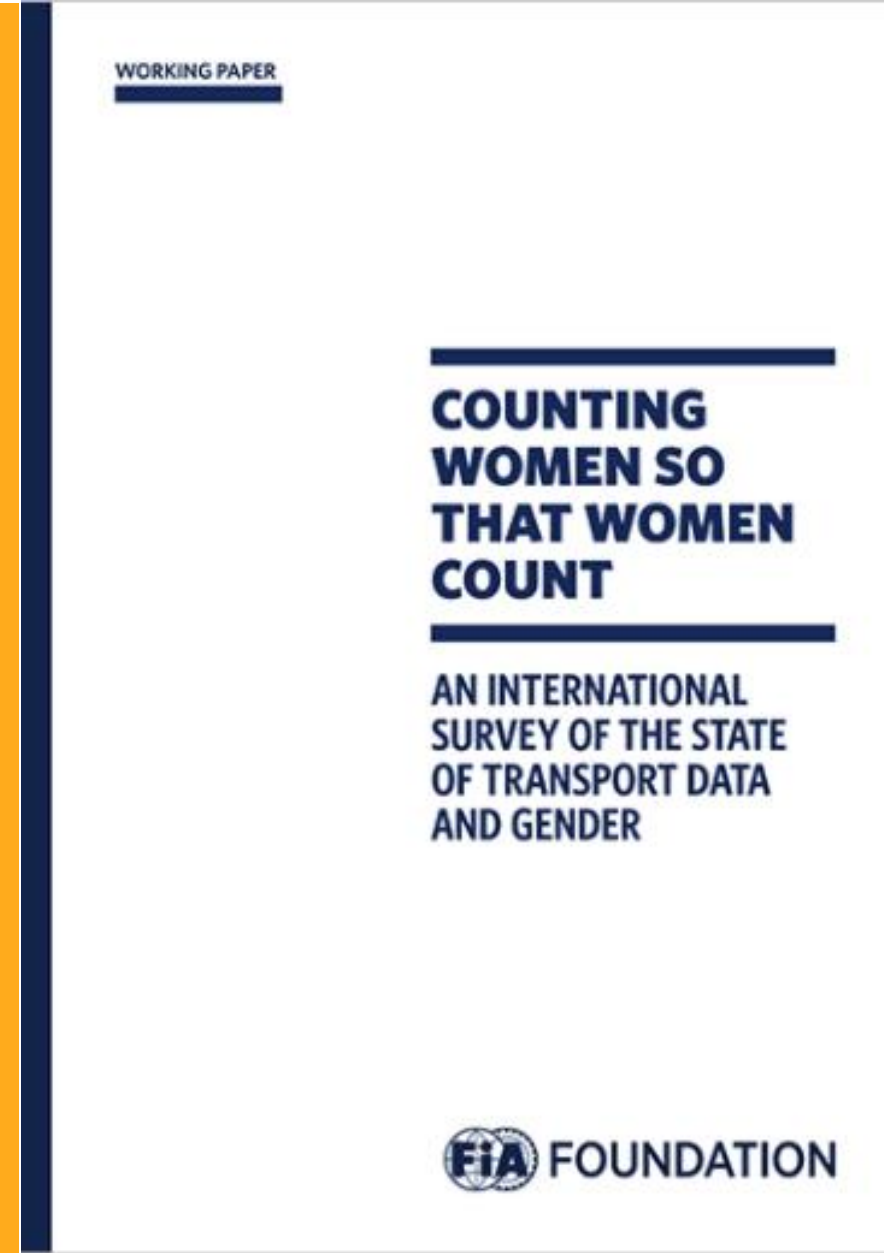

*There is more and more information available but there are also some key gaps that need to be filled..*
