#### **About SOLUTIONSPlus:**

The SOLUTIONSplus project sets up a global platform for shared, public, and commercial e-mobility solutions, and to kick start the transition towards low carbon urban mobility. The project encompasses city level demonstrations to test different types of innovative and integrated e-mobility solutions, complemented by a comprehensive toolbox, capacity development and replication activities.

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 875041.
