ABOUT THE CONFERENCE

The **Annual POLIS Conference** provides a unique opportunity for your organisation to connect with up to 900 committed transport innovation professionals who work in local and regional governments and related public and private sector organisations and companies.

Our **plenary sessions** focus on the European, urban and regional policy dimensions of sustainable transport and feature high-level speakers, such as ministers, deputy mayors, European Commissioners, and thought leaders from international organisations, academia, and the industry.

The **technical parallel sessions** feature in-depth presentations and discussions on urban transport solutions selected through an open call for speakers.

The **Annual POLIS Conference 2023** will take place on 29 and 30 November 2023 in Leuven, Belgium.

ABOUT POLIS

POLIS

CITIES AND REGIONS FOR TRANSPORT INNOVATION

Since **1989**, European local and regional authorities have been working together within POLIS to promote sustainable mobility through the deployment of innovative transport solutions.

The **POLIS Network** fosters cooperation and partnerships across Europe to make research and innovation in transport more accessible to cities and regions.

MEET THE HOST: LEUVEN

Leuven, Belgium, is a mission-driven city that excels through inspiring governance models and the systems put in place for the public to innovate and get involved in critical decision-making processes.

Dynamic and diverse, Leuven is at the **forefront of innovation**: indeed, the European Commission awarded the city as the **2020 European Capital of Innovation** for its unique cooperation model that allows residents, institutions, and organisations to co-innovate, test, and apply solutions to fight climate change, foster the quality of life and education, and promote a sustainable, accessible, and inclusive mobility system.

Leuven is the current **President of POLIS**.

Brabant has been the **venue** for congresses, fairs and meetings in the Leuven region since 1995. With a total surface of 6000 m², Brabant is suitable for a diverse range of events.

The large hall with the adjacent foyer and the auditorium and 8 modular rooms on the first floor make this venue a multifunctional space, with room for more than 2000 visitors and ample exhibition opportunities.
