How to do it

- The development of the Greenway project documentation began in October 2018 and, as one of the Pilot project activities, was completed by the end of 2023.
- The entire project is divided into:
 - 9 phases
 - 3 large rest areas
 - construction of 1 bridge
- Each element has separate technical documentation, and the works can be carried out independently.
- Estimated value of construction works is **106.389.037,00 €**

Eco-asphalt

- For the first time in Croatia, eco-asphalt has been produced, marking the inaugural implementation of new technologies in our infrastructure
- By incorporating green infrastructure, we aim to increase the number of users while simultaneously reducing our carbon footprint.

VI phase

- Construction start 26th October, 2024
- Length 9.550 m

**Thank you
for your attention!**
