Safety

Infrastructure and land use

- Freight transport accounts for 10% of total traffic but is involved in 20% of road accidents
- Demand for safe(r) routing from supermarket chains
- Political will to enhance traffic safety

User-Centric & Data Driven Solutions for Connected Urban Poles

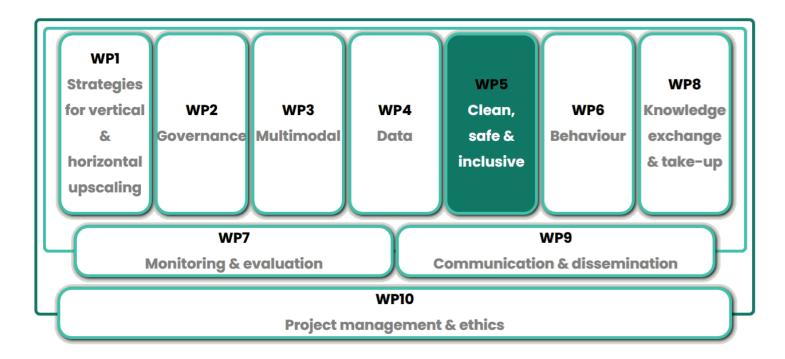

- 3 stunning cities
- 3.9 million active citizens
- 28 urban mobility strategies
- 23 committed partners

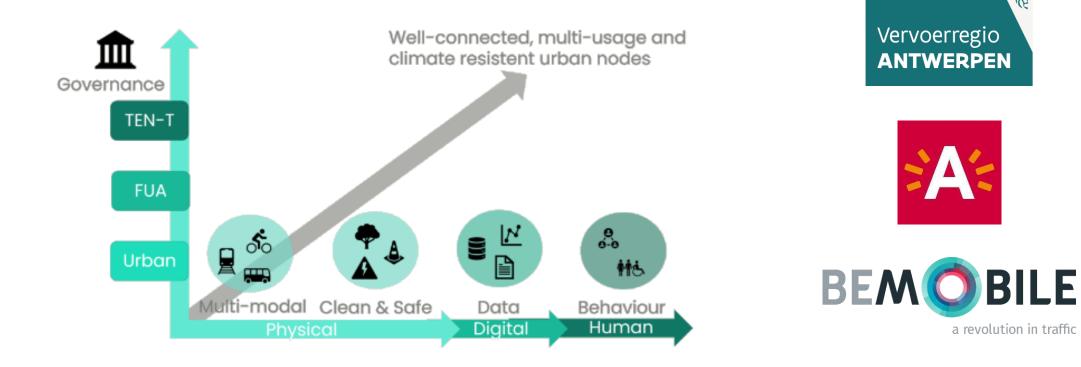

User-Centric & Data Driven Solutions for Connected Urban Poles

WP 5 - Clean, safe and inclusive mobility solutions:

- Innovative, clean and zero-emission mobility solutions (emphasis on shared e-mobility services and added value services).
- Promotion of renewable energies and smart grid use.
- Safety implications.

Freight route planner
