Fostering innovation in A Coruña through the deployment of UAM

Where are we?

itg

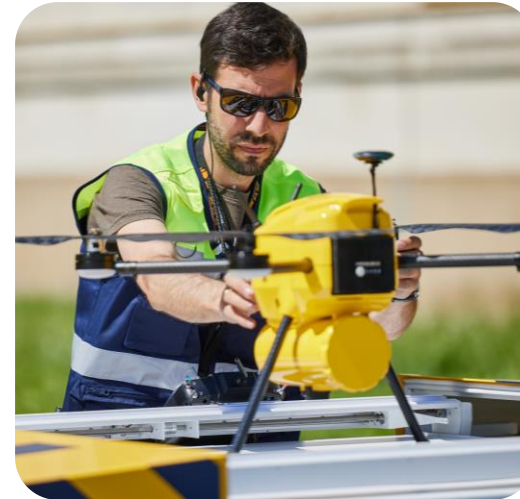

Building Blocks

**Developing unique
Infrastructures**

**Building sustainable
demand**

**Working on R&D
Initiatives**

**Multi-layered
governance**

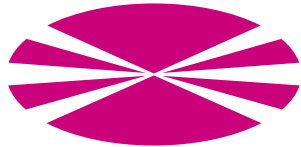

A Coruña's UAS Ecosystem

**A Coruña City
Council**

**ITG Technology
Centre**

**A Coruña
University**

**Regional UAV
Aid Program**

U-ELCOME

**EU
Demonstrator**

UIC2

- 1 Need to close **AIR – GROUND** gap.
Integration with existing mobility systems is essential.
- 2 **Engaging local authorities can be challenging.** Fast evolving technical and regulatory framework.
- 3 Sandboxes are not enough.
Need to fly on **living-labs** to move forward.
- 4 Drones have low priority in mobility plans. However **interest is starting to grow**

.grow
.transform
.imagine

Thank you!
